PROFILE

Results-driven WordPress and Front-End Developer with hands-on experience building, customizing, and maintaining responsive, high-performance websites using WordPress, Elementor, HTML5, CSS3, JavaScript, Bootstrap, React.js, and PHP. Skilled in theme customization, plugin configuration, cross-browser compatibility, and site speed optimization, with a track record of delivering clean, user-focused interfaces for real business clients.

TECHNICAL SKILLS

WordPress	WordPress, Elementor, Theme Customization, Plugin Management
Frontend	HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, Responsive Design
Backend	PHP, MongoDB
Hosting	Website Hosting, Live Website Management
Optimization	Speed Optimization, Performance Tuning, Mobile Responsiveness
Tools	Git, GitHub, VS Code, Netlify

EXPERIENCE

Chennai Maratha — WordPress Developer

July 2025 – Present

- Developed and maintained responsive WordPress websites for business clients.
- Customized WordPress themes and Elementor-based layouts to match project requirements.
- Managed and configured WordPress plugins for SEO, security, performance, and functionality.
- Worked with PHP, HTML5, CSS3, and JavaScript for WordPress customization and troubleshooting.
- Resolved UI/UX, mobile responsiveness, and cross-browser compatibility issues.
- Performed website speed and performance optimization to improve load time and user experience.
- Managed live websites, including updates, maintenance, and hosting-related tasks.

Speed Techno Institute — MERN Stack Developer (Training)

Aug 2024 – Jan 2025 | Chandigarh

- Worked on frontend development, responsive design, API integration, and website deployment / live management.

PROJECTS

Chennai Maratha — WordPress Website

HTML, CSS, JavaScript, WordPress, Responsive Design

- Designed and developed responsive website interfaces for real users.
- Optimized speed, responsiveness, and overall user experience.
- Fixed UI issues and ensured cross-browser compatibility.
- Managed plugins for SEO, security, and website functionality.

79 Degrees Experiences — Premium Expedition Brand Website

HTML, CSS, JavaScript, WordPress, Elementor

- Created a clean, single-scroll landing page focused on lead generation.
- Customized an Elementor template to match a luxury, minimal brand direction.
- Enhanced user engagement through smooth scrolling and subtle motion effects.

Tripzo AI Trip Planner — AI-Integrated Travel Website

React.js, Netlify Serverless Functions, Gemini API, Bootstrap

- Integrated an AI itinerary generator into a React travel site using the Gemini API and Netlify serverless functions, with structured JSON prompts and a multi-model fallback for reliability.
- Deployed the full-stack app on Netlify with secure environment-based configuration and automatic red deploys via GitHub.

React World App — API-Based Application

React.js, API Integration, JavaScript, CSS

- Built a dynamic application featuring live API data fetching, real-time rendering, and a clean, component-based architecture.

EDUCATION

Bachelor of Arts

Punjab University | 2026
